1970

**1970s – Birth of
“Business Broking”
Concept**

McDonald's and Burger King replaced the small town fast-food operations and coffee shops in the 70s which further opened up new sources of revenues for business brokers.

1980

**1980s – Emerging
Business Broking
Trends**

Boom in the Business Broking Industry! People left their existing offices and ventured out on their own to start broking business.

1990

**1990s – Business
Broking Trend went Viral**

Diversification across industries & inclination towards business expansion contributed to the business broking trend to go viral. Business Broking was adopted as a more serious & committed profession.

2000

**2000s – Beginning of
Online Business Broking**

“The Era of Internet” – Business Broking Industry went ONLINE with web-based Listing sites, Online Programs etc. As a result this opened doors for brokers to get access to global clientele.
